Federico Ciceri

Front-end Developer

federico.cice@gmail.com Copenhagen, Denmark

https://federico.world/PORTFOLIO/

Front-end Developer motivated to grow through self-learning and practical experience. Currently contributing to the front-end development of a web application and managing a company website, gaining hands-on skills with modern technologies and frameworks such as React, Next.js and Tailwind. Combines technical curiosity with a strong creative background in sound design and music production, bringing an eye for detail, aesthetics, and user experience. Eager to continue developing expertise in front-end development and to contribute to innovative digital projects within a collaborative team environment.

PROFESSIONAL EXPERIENCE

One Sky Collective 04/2025

Front-end Developer

- Collaborated with a team to develop an application focused on environmental preservation, which aimed to raise awareness and encourage sustainable practices among users.
- Utilized React and Expo to create a user-friendly interface, helping to enhance user engagement and overall experience.
- Integrated Android Studio in the development process, ensuring the app was optimized for a wide range of Android devices.

Coach Tribe 03/2025 – 06/2025

Front-end Developer

- Collaborated with a team to develop a dedicated web page aimed at supporting individuals in Africa, which empowered users to achieve their personal and economic goals.
- Utilized React Router to create a seamless navigation experience, helping users easily access various resources and information on the platform.

Isola Production 04/2018 – 10/2024

Co-founder / Studio Manager Arosio, Italy

Founded and managed a recording studio providing music production, audio recording, and sound design services. Oversaw recording sessions for artists and groups, created custom audio content for diverse projects, and ensured high-quality results from conception to final mix.

ORGANISATIONS

Comfy Penguin Games 06/2023

Sound Designer / Developer

- Composed and implemented game music and sound effects, ensuring seamless integration with gameplay.
- Oversaw the company’s website management and updates.
